## SUMMARY

As a dedicated teacher, I work hard to set clear goals and expectations with my students and their parents. I adapt my teaching style to fit each student's needs and learning style, using different methods and resources to make lessons fun and interesting. I encourage my students to ask questions and give feedback, so they can fully understand the material. I create a positive and supportive learning environment to help my students feel comfortable and confident. I keep track of their progress and adjust my teaching as needed, while keeping in touch with both students and their parents.

## ACHIEVEMENTS

### Student Progress and Exam Results

I motivated my students to progress in their studies, resulting in significant improvements in academic performance and outstanding exam results.

### Additional Responsibilities and Supporting Students

I took on additional responsibilities outside of my regular teaching duties and supported my students through innovative lesson planning and inclusive activities.

### Positive Feedback

I received positive feedback from supervisors, colleagues, and parents for my effective teaching methods and dedication to student success.

## SKILLS

- Communication - Experienced
- Adaptability and Patience - Skillful

### Home Tutor

Lagankhel / April, 2023 - March, 2024

I gave home tuition to an 8th grader in all subjects. I customized my teaching to suit the student’s needs and abilities. The student improved their understanding and performance in these subjects. I found this experience very fulfilling.

### Part-time teacher

Everest Florida High School / Kathmandu / August, 2023 - March, 2024

I’ve had the privilege of teaching Computer Science at the secondary level. My approach was all about crafting engaging lessons that would help my students become proficient in programming languages and computer applications. I loved guiding them through the digital landscape, showing them how to build and explore. It’s incredibly rewarding to witness those “aha” moments when coding concepts click for students.

### Part time teacher

Nava Jyoti Secondary School / Kathmandu / May, 2024 – Present

Instructed students in the **NEB-prescribed Computer Science curriculum** for secondary levels. Focused on practical application of **programming concepts, database management, and essential digital citizenship**. Successfully prepared students for internal assessments and board examinations through engaging, competency-based teaching methods
